## RigidForm™ Technology

RigidForm 175 (rolled-over nail hem) technology stiffens siding for a straighter-on-the-wall appearance and has been tested\* to withstand wind load pressures up to 175 mph.

\* Wind load rating per VSI wind speed calculation guidelines.

**DuraLock®** features an oversized rigid tear-drop shape which is substantially larger than many competitors' locks, providing secure installation.

The angular locking leg creates a secure, snap-fit installation, allowing for necessary expansion and contraction.

Color performance, impact resistance and durability are assured through our exclusive PermaColor™ System, a blend of our own Certavin™ resin, superior micro-ingredients and state-of-the-art pigment chemistry.
